Methodist Church Destroyed by Fire.

The Methodist Episcopal Church, South, situated on corner of Pleasant and Seventh streets, this city, was burned to the ground shortly after 11 o'clock by fire originating in the basement from an overheated furnace causing a loss of \$20,000 to the good people of this congregation.

The fire was discovered shortly before 11 o'clock, about one hour after regular prayer meeting services had been concluded, when Gilbert Lytle, son of Mr. and Mrs. Omar Lytle, on passing the church on his way home from a supper given by his Sunday school teacher, Mrs. B. M. Shive, he noticed that the basement of the church was a mass of flames. He quickly turned in an alarm from box No. 22 at corner of Main and Seventh streets, but when the department reached the building it was beyond the skill and power of the fire ladders to save it. A second alarm was turned in immediately upon the arrival of the fire department, as they wanted assistance in getting out every piece of fire apparatus owned by the city. The company can be congratulated by all on the brave and heroic work done in the saving of the surrounding property, being handicapped as they were by the zero weather in full blast. The frame cottage of Mrs. Georgia Wright, on North side of the church, and the livery stable conducted by T. G. Morris, caught fire several times but were soon extinguished.

The church was a beautiful stone structure, and was built during the pastorate of Rev. E. G. B. Mann at a cost of \$20,000, and was dedicated in 1897. The last note of \$1,000 on the indebtedness of the church was paid only a few months ago in the presence of the entire congregation.

The annual meeting of the Kentucky M. E. Conference was held in the building in September last. A number of valuable books belonging to the pastor, Rev. M. T. Chandler, were taken from the study room in church yesterday morning in badly damaged condition by water. The stone walls, covered with ice is all that is left of the structure.

Insurance on the building amounts to \$10,000, which will be a nice nest egg for the building fund. While no plans for the future have been formulated it is certain the church will be rebuilt.

Much sympathy is expressed by the community in general at the burning of this house of worship, which was erected by hard and faithful work of the noble Christian women of the church.

Miracles.

Miracle of miracles is man! Most
helpless of all God's creatures in in-
fancy; most powerful when fully de-
veloped, and interesting always. Led
in youth by the parent's hand, he be-
comes during maturity the staff of
those who led him, and in age he is
again helpless and must look for as-
sistance to his children and his chil-
dren's children. He is ever both in-
structor and pupil, teaching while he
is being taught, daily exerting an in-
fluence while he receives impressions
from his environment, and carrying
through life a power to help and harm,
little less than infinite.

What incalculable space between a
statue, however flawless the marble,
however faultless the workmanship,
and a human being "flame with the
passion of eternity." If the statue
cannot, like a human being, bring the
gray hairs of a parent "in sorrow to
the grave," or devastate a nation, or
with murderous hand extinguish the
vital spark in a fellow-being, minis-
ter to suffering mankind, nor scatter
goodness "O'er a smiling land," nor
yet claim the blessing promised in the
sermon on the Mount. Only to man,
made in the divine likeness, is given
the awful power to choose between
measureless success and immeasurable
woe. (From Mr. Bryan's address en-
titled "Man," delivered at commence-
ment day exercises, Nebraska State
University, June 15, 1905.)

The Cost of Living.

According to Bradstreet's, the cost
of living is still advancing. It is now
within a fraction of one cent of the
highest mark in our history, and at
the present rate of increase, soon will
establish a new record of altitude.

This increase cannot be attributed to
the slight net increase in the tariff un-
der the Payne-Aldrich law. It is more
largely due to the constantly increas-
ing greed and daring of the benefi-
ciaries of the tariff system in taking
advantage of that system to form ex-
torting combinations and to raise the
rates of extortion. It is true that a
good many necessities of life are not
directly affected by the tariff. But all
are indirectly affected. Once eliminate
the outrageous provisions of the tariff
and the whole market would adjust
itself to a more reasonable basis—the
basis of lower prices to the consumers
and smaller profits to the trusts.

While the trusts exact more and
more, penny by penny, they continue
to divide enormous profits and watered
stock, and enjoy the increasing
values of their shares, and they marvel
that the country should be conscien-
tious of the cost of living. It is a
great system, this system of tribute.
It insures luxury for the needy rich,
and as for the poor, they neither ask
it nor expect it.

The above is taken from the Kansas
City Times, a Republican paper.

Are Coming in Style.

That finest of all gaiters for a saddle
horse, the running walk was exhibited
at the horse show in an eastern city
recently, and actually attracted atten-
tion. Let these Eastern folks alone
and they will come around all right
yet. Remember, it was only a few
years ago when they would not toler-
ate a Kentucky saddle horse, now they
are getting to be all the go. Next
they will take to the rack and running
walk and then bluegrassdom will come
into her own again.

Russ Corbin, the well-known colored
barber, has leased a room in the Paton
building, opposite the Fordham Hotel,
and will open a first-class barber shop.
The new shop will be open for busi-
ness Thursday, Dec. 23. Two new
chairs have been installed and Corbin
will have a competent assistant to
help take care of the trade. The pub-
lic is invited to visit this new ton-
sor parlor and courteous treatment
and prompt service is assured. 21-1f

State Banking Department.

That a State Banking Department
is essential to the future welfare of
the banking business in Kentucky is
the belief of the members of the
Executive Committee of the Kentucky
Bankers' Association, which at a meet-
ing Tuesday decided to have a bill
introduced at the coming session of the
Legislature for this purpose.

The meeting of the Executive Com-
mittee was held in the offices of the
Association of the American National
Bank Building at Louisville.

According to bankers identified with
the association one of the principal
benefits derived by the bankers from
such a bill as is proposed is that every
State Bank will be subjected to peri-
odical examinations by the State's
representatives the same as are requir-
ed of National banking laws.

It is pointed out that the condition
of the State banks should be as well
known to the State as the condition of
National banks are to the Federal
Government. They say a law requir-
ing all the banks to submit to the
examinations would be fair and just to
the people as well as to the stock-
holders.

The Bankers' Association in the
State fought last year to get such a
measure through.

Taft Talks Special Message.

President Taft discussed with mem-
bers of his cabinet Tuesday the final
details of the special message he will
send to Congress dealing with propos-
ed amendments to the inter-state com-
merce and Sherman anti-trust laws.

At one time it was thought that the
President might in this, the first of his
series of special messages to Congress,
deal only with the inter-state com-
merce act, leaving it proposed discus-
sion of the anti-trust law to some fu-
ture date. He has decided, however,
that as the two subjects are so closely
related, he will adhere to his original
intention of making his recommenda-
tions for changes in the two acts in
one communication.

In this message he also will submit
his recommendations for the issue of
federal licenses for corporations. The
proposed license will be a voluntary
one to be taken advantage of by such
corporations as desire to place them-
selves under Federal jurisdiction, or
left alone, as the directors of the cor-
porations see fit.

Could Not be Better.

No one has ever made a salve, oint-
ment, lotion or balm to compare with
Bucklen's Arnica Salve. It is the one
perfect healer of cuts, corns, burns,
bruises, sores, scalds, boils, ulcers,
eczema, salt rheum. For sore eyes,
cold sores, chapped hands its supreme.
Infallible for piles. Only 25 cents at
Oberdorfer's.

The Cash System.

The Warsaw Independent has the fol-
lowing in regard to the growing senti-
ment in the State regarding the cash
system: "The cash system of doing
business is being talked pretty strong-
ly over the State and already several
firms, in fact, the largest proportion
of them in several of the larger towns
of the State have made public an-
nouncement that they will do only
strictly cash business after January 1,
1910. The idea is fast permeating the
smaller towns as well, and it can re-
quire no very severe stretch of the
imagination to see that the day of long
time credit is fast drawing to a close.
The end of the old credit system will
place all business on a far better and
more healthful basis than it has reser-
ved on for years. Paying cash for
everything will more quickly bring a
people to sane ideas of necessity, an
economy than all the finely spun
theories that could be advanced on this
line. Aside from this, nothing need
be said of the fact that should the mil-
lennium come during the present long
time credit method, it would find three
fourths of the world in debt and no op-
portunity nor time given in which to
square the book."

An Old Debt.

Forty-six years ago, during the Civil
War, the Bath County court house was
burned through the carelessness of
Federal soldiers who were in posses-
sion of it. The Federal Court of
Claims has allowed \$4,500 as damage,
which sum will be paid to the Fiscal
Court.

**Liver Trouble
Remedy Free**

Any intelligent person can be his
own doctor in the ordinary case of
liver trouble, for the symptoms can-
not be mistaken. If the white of the
eye becomes yellowish, if the skin be-
comes sallow, if pimples and blotches
appear, if the bowels do not move, if
you have sick headache, if you are
bilious, you may be sure that your
liver is torpid or inactive.

The quickest and surest remedy yet
found for the cure of liver trouble or any
of its symptoms is Dr. Caldwell's Syrup
Pepsin, the great herb laxative compound.
This wonderful remedy is not only a laxa-
tive, but a tonic as well. It will start
the flow of gastric juice, thereby soon
enabling the liver to do its work natu-
rally. A bottle of this great liver remedy
can be bought of any druggist for 50
cents or \$1, and in many cases a single
bottle has cured a chronic case.

For example, John W. Lee, 619 S. Penn-
sylvania ave., Indianapolis, Ind., had a
stubborn and very long-standing case of
liver trouble, with pimples, blotches,
jaundice, etc., and it cured him. Mrs. B.
Finchum, Jackson, Ky., says the same
of it. Thousands of families keep it in
the house against just such an emer-
gency, as you can never tell when some
member of the family will need a good
laxative.

In order to have you or any other suf-
ferer from the liver make a test of Dr.
Caldwell's Syrup Pepsin without personal
expense, Dr. Caldwell will send you a free
test bottle if you will send your name
and address. The sample will show you
how pleasant it is to take, how gently it
works. It will start you on the cure of
your trouble and convince you that you
have found a cure. That is the object of
the sample, and the doctor urges you to
send for it today.

If there is anything about
your ailment that you don't
understand, or if you want
any medical advice, write
to the doctor, and he will
answer you fully. There is
no charge for this service.
The address is Dr. W. B.
Caldwell, 500 Caldwell bldg.,
Monticello, Ill.

Trustees W. T. Lafferty and R. C. Stoll, of the State University; Regents J. A. Sullivan and P. W. Grinstead, of the Normal School at Richmond, and J. White Porter and R. K. Cole, of the Normal School at Bowling Green, met at Lexington Tuesday to frame an appropriation bill for the Legislature. The State University needs \$250,000. Bowling Green School \$100,000. Richmond School \$75,000. The trustees

and regents will have another meeting at Frankfort during the first two or three weeks of the session of the Legislature to make up a bill, in which it is hoped the amounts will be cut.

It would seem only fair that Commodore Peary should submit proofs that he reached the North Pole to the same scientific tribunal that turned down Dr. Cook.

Kentucky's Wool Clip.

The Farmers Home Journal of December 11, under the heading "Pooling Kentucky's Wool Clip; Some Remarkable Claims," says:

"We learn from publications in the daily papers of Louisville that a movement has been launched to pool the wool clip in Kentucky next year. A meeting is said to have been held at Lexington last Tuesday, December 7, at which a temporary organization was affected with Mr. J. W. Newman, of Versailles, as temporary president and C. E. Crecelius, of Pendleton county, as temporary secretary. The object of the pool, it is stated, is to sell the Kentucky wool direct to the manufacturers instead of having it pass through the hands of four middle men, who, it is charged, each have a 'take out' of from one to two cents.

"The 'Farmers Home Journal' always stands for any and all movements having for their purpose a help for the farmer, financially or otherwise. We believe if Kentucky's wool clip could be pooled and sold as a whole to the manufacturer it would be a good thing. But every movement having for its purpose to benefit farmers should deal frankly and truly with them, and great care should be taken by the promoters not to mislead them. We regret that the promoters of the present movement seem to lack information as to the wool product of Kentucky or are making some reckless statements about it.

"The alleged meeting at Lexington issued a 'Call to Wool Growers' which is being published in our city papers and perhaps others. In this 'Call' it is stated that the annual wool clip of Kentucky sheep men would be from half to a million or more dollars. Such figures do look tempting, but they are very far from stating the facts. We learn from the published report of the United States Government that the total number of sheep in Kentucky is, in round numbers, 600,000 and that the average clip is 5 pounds per head, giving a total wool clip for the State of three million instead of ten to fifteen million.

"We find that the County Assessors practically confirm the government report, as they give the number of sheep in the State at 636,243. Taking the average total clip of the State at 3,000,000 pounds and say it should sell for 30 cents per pound (which would be a high average) the entire State clip would only bring \$900,000. Yet the alleged Lexington meeting proposes to save sheep men a million dollars, or more than the entire State's clip will sell for. According to the Assessor's reports for 1909, the value of all the sheep in the State is placed at \$1,781,694.

"We give these facts taken from official Government records to show how reckless men sometimes are in their statements. The Lexington meeting probably had more enthusiasm than facts. But in such movements conservatism and truth will win, where wild, visionary and reckless statements will injure the cause in the end and will make farmers suspicious of movements which may result to their good.

"The pooling of Kentucky's wool clip might save some middle men's commission, but it could not affect the general price of wool in the United States.

"For example the United States produces, in round numbers, about 300 million pounds of wool annually and imports about the same amount. So that we see that Kentucky's clip amounts to only one-hundredth part of this country's produce and only one two-hundredth part of what is consumed in the United States. Let's pool the wool if we can, but tell the farmers the situation."

Kentucky Horses and Cows for Old Mexico.

Henry L. Casey, now of City of Mexico, formerly of Paris, is in Kentucky on a purchasing tour for a syndicate of Mexican capitalists. While here he will purchase a carload of mares which he will ship to Mexico for breeding purposes.

When seen by a reporter Mr. Casey said: "The Mexico City Jockey Club has almost finished one of the finest race courses in North America. It has a mile and a quarter turf track, with a dirt track just inside of that, while in the center are the steeplechase course and the polo grounds. The entire course is underlaid with irrigation pipes and is to be in every way one of the very finest tracks on the continent. The Mexican City Jockey Club, which is building this track, is a club entirely separate from the Jurez organization and proposes that this track shall be the equal of any track anywhere in North America.

"Besides the horses I was also commissioned to buy two carloads of Holstein cows, to be used in Mexico for dairy purposes.

"The country about Mexico City is a great region, there being already several dairies of several hundred cows each immediately adjacent to the city. Holsteins are used in these dairies almost exclusively, though there are some of the brown Swiss cattle also being used there now.

"I will leave in a few days for Elgin, Ill., where I expect to purchase cows and ship them to Mexico. Later, however, I will return to Kentucky for a few days before going back to Mexico."

Mrs. Hargis a Wreck.

A Jackson, Ky., dispatch says: Broken down in body and in sore distress, Mrs. Hargis, widow of Judge James Hargis, the Breathitt county feudist, presents a pathetic spectacle today, the result of perhaps the most bloody feud ever known in Kentucky's history.

Mrs. Hargis, mother of Beach Hargis, the young man who was sentenced to prison for life for killing his father, is but a mere shadow of her former self. Her mind, once alert and active in the constant defense of her son said to be feeling the strain and physicians fear she will go insane. When Mrs. Hargis turned from the grave of her husband she had naught left in this life, but her only son, the murderer of his father, and the money left by Judge Hargis. The estate containing the dead form of Judge Hargis had hardly been lowered to its place when Mrs. Hargis determined to fight for the living and ever since she has stood nobly by her son in his struggle for liberty.

When the Court of Appeals, after hearing the merits of the case confirmed the action of the lower court, Mrs. Hargis broke down under the strain and her condition is now pitiable.

Up in her mountain home, her kinsmen shot down by the hands of feudists, her husband killed by his own son, and alone and with nothing to comfort but the picture that is left from the Hargis fortune, this woman whose life has been one tragic chapter of woe and unhappiness, deplores the fate that has overtaken her son and her remarkable strength of character and fortitude is rapidly leaving her.

The Mystery Unsolved.

It is three weeks since Alma Keller, the eight year old daughter of Mr. and Mrs. Fred Keller, of Louisville, disappeared while on her way to St. John's church, Clay and Walnut streets in that city.

The mystery of the little girl's disappearance is as far from being solved as ever, though many clues have been run down, and the police of many cities have been working on the case. It is said at the Keller home that nothing has developed that would furnish a clue.

Don't Want Much.

Commissioner of Agriculture, M. C. Rankin says there is only one thing

that he wants from the Legislature, and that is an appropriation of about \$200,000 for the completion of the State Fair Grounds and enlargement of the grounds. He said:

"The State Fair needs another appropriation to put everything in good shape, and put it on a lasting foundation. I am not going to ask for any appropriation for my department; I have no pet bill to pass, and have nothing to ask of the General Assembly except that it provide befittingly for the State Fair, which has proven so well its worth to Kentucky."

Called Council Meeting.

There was a called meeting of the City Council Tuesday evening with the following Councilmen answering the roll call: Baldwin, Dempsey, Taylor, Link, Wilson, Wilmoth and Woolstein.

In the absence from the city of Mayor James M. O'Brien, Councilman Robt. Link was elected Mayor pro tem, and presided at the meeting.

Councilman J. S. Wilson explained the purpose of the meeting for which the Council was called in special session, viz: The consideration of bonds to be given by the city officials; the appointment of an additional member of the Fire Department and the appointment of a committee to take an inventory of all property belonging to the city, constituting the equipment of the street repair department; and an alleged insult offered to a member of the Council by a city official.

The bonds to be given by the newly elected city officials were fixed as follows: City Collector, \$50,000; City Treasurer, \$50,000; Police Judge, \$2,000; Chief of Police, \$2,500 and patrolmen \$1,000 each.

Mayor Link designated Councilmen Wilson, Dempsey and Taylor a committee to take an inventory of all property belonging to the city under the supervision of Superintendent Malanny and which is to be turned over to the newly appointed Superintendent John Cain on January 1, 1910.

Everything moved smoothly until the question of an alleged insult that had been made to Mr. Wilson, of the Board of Council by Mr. John Malanny, Superintendent of the city street department. Here a clash came. Mr. Wilson stated that he had visited the rock quarry Tuesday morning in the capacity of a city official. Mr. Malanny was not present at the time and he was told by several of the city hands that Malanny was down in the city; that he was merely taking a birds-eye view of what was there. Afterwards, he was called up at his home by Malanny, who ordered him to keep out of the rock quarry until after January 1st, and using language that was an outrageous insult to him, and he felt it was applicable to each member of the Council as to himself.

Councilman Dempsey then arose and said that he was present to transact any business matter in regard to city affairs at this meeting, but he would have nothing to do with a matter that he considered a purely personal one between Mr. Wilson and Mr. Malanny. Councilmen Taylor and Volstead agreed with Mr. Dempsey and the three men marched out of the room.

With Mr. Link in the chair, elected as acting Mayor, left only three members on the floor, which was no quorum. This caused much talk as to what constituted a quorum, and we were informed by one present that it was quite amusing to see the middle that they were in. We understand that Mr. Lewis Lileston, one of the spectators at the meeting, offered to help them out of the scrape by giving

them some legal advice in regard to the way to get out of the mire. Anyway, they finally adjourned without doing any further business.

Acting Mayor Link, however, carried Mr. Wilson's point for him Wednesday morning, issuing orders closing the city quarry and suspending all employees connected therewith, except two men, one to look after work stock belonging to the city and the other to keep street crossings free from snow.

New President Elected.

Thomas M. Chivington, of the Louisville Club, was elected president of the American Base Ball Association in Chicago Wednesday at the annual meeting of the organizations. The successful candidate received five votes to three for J. D. O'Brien, the incumbent, on the first ballot. The club representatives from Kansas City, Louisville, Columbus, Toledo and Indianapolis voted for Chivington, and Minneapolis, St. Paul and Milwaukee supported O'Brien.

Cold Wave.

As a result of the big storm which has swept the Atlantic Coast for the past several days a cold wave swooped down on Paris and Central Kentucky Wednesday morning, lowering the mercury in the thermometer to 4 degrees above zero, and 6 degrees below Thursday morning.

The weather report issued from the Lexington Bureau Tuesday night indicated warmer weather, but things took a sudden change and the promised warmer weather is not scheduled in later reports to reach Paris for several days.

A great deal of suffering was caused in number of homes in the city yesterday morning on account of water pipes bursting and, as a result, plumbers were kept busy practically all day making repairs.

Wedding Causes Surprise.

Much surprise was caused at Lexington Wednesday by the announcement of the marriage at Los Angeles, Cal., of Miss Lourene Crothwaite, of Lexington, to Goodwin Chase, of Los Angeles. The marriage took place in Los Angeles Sunday and the first known of it in Lexington was when the bride's father, Samuel Crothwaite, who is connected with the United States revenue office, received a telegram announcing the fact.

Miss Crothwaite was engaged to be married to Charles Blaine, of Spokane, Wash., nephew of James G. Blaine, and the invitations had been issued for the wedding to take place today. Miss Crothwaite had been attending Page Seminary in California since the beginning of the last school session and there she met Mr. Chase. Her mother is in California with her.

Oscar Hinton Shot by Hold-Up Men.

As the result of an alleged hold-up Monday night by two Negroes, at the corner of Second street and Ormsby avenue, in Louisville, Oscar Hinton, son of Mr. and Mrs. W. O. Hinton, of this city, lies at the Norton Memorial Infirmary, in the Falls City, suffering from a bullet wound in the mouth.

The following particulars we take from Tuesday's Louisville Times: "Oscar Hinton, seventeen years of age, a student at Transylvania University, a son of W. O. Hinton, and grandson of John T. Hinton, Mayor of Paris, Ky., was shot and seriously wounded shortly before 8 o'clock last night by a negro highwayman, who, with a colored confederate, attempted to hold up and rob him at the mouth of an alley on the East side of Second street, between Ormsby avenue and Oak street.

"The bullet struck his upper lip, knocked out two teeth, tore out a piece of jaw bone on the right side, lacerated the roof of his mouth and lodged in the back of the neck. An X-ray examination will be made today at the Norton Memorial Infirmary, to locate the bullet and determine whether a surgical operation will be necessary. It is believed that the spinal column was not injured. While the wound is of a serious nature, his recovery is expected. Hinton came to Louisville Saturday with his parents to spend the Christmas holidays at the home of his aunt, Mrs. J. K. P. Snyder, 119 West Burnett Avenue. Last evening he started out to visit a friend. He was walking in Second street, and had reached the alley just north of Ormsby avenue when he was seized from behind by a negro, when a second negro placed a revolver in his face and demanded that he hold up his hands and submit to a search.

"Although covered by the weapon and held firmly by the negro in the rear the youth resisted and fought gamely to free himself. The struggle lasted only a few seconds. The highwayman with the revolver fired and his victim fell to the sidewalk.

"Residents of the neighborhood were attracted by the report of the pistol and the faint cries of the boy. Overton S. Meldrum, George F. Meldrum and Dr. Carl Grant were the first to reach him. He was removed to the Norton Memorial Infirmary, where he was attended by his uncle, Dr. John King Freeman, and Drs. W. O. Robert and Carl Grant. It was at first feared that the wound would prove fatal, but a closer examination revealed that the wound is not especially dangerous. He spent a rather long night.

"The shooting of young Hinton caused excitement in the neighborhood. He had been gone but ten minutes from his aunt's home when the telephone message was received of his fate. A telephone call was sent to the sixth police district and to Central Station and officers were hurried to the scene in automobiles. They searched the neighborhood, but were unable to find a trace of the negroes. Young Hinton furnished the officers with a good description of the man who shot him; he did not get a good look at the man who seized him from the rear, but says he was a negro.

"No attempt was made to rob him after he had been shot, the highwaymen fleeing to escape. He had but a small amount of money with him, but carried a fine gold watch."

LATER.—The latest report from Oscar Hinton yesterday afternoon was that in a fit of coughing he in some manner extracted the bullet that had been imbedded in the roof of his mouth. His physician says he will be out of danger in a few days.

Card of Thanks.

We desire to express our thanks and appreciation for the liberal patronage extended us during the Holiday season and for the year so near a close.

This year has been one of the most prosperous to us during our business career, and we feel that we owe this to the liberality of the citizens of Paris and Bourbon county. It has been our direct aim to please all of our patrons and it is from this effort alone we feel that we have reaped such a reward.

In the future we assure one and all the same courteous treatment of the past, and wishing one and all a happy and prosperous New Year, we remain,

Very respectfully,

Bold Hold-Up on Eighth Street.

Jim Singleton, a farmer of Harrison county, was found in a snowdrift on Eighth street Tuesday evening, a little after 6 o'clock, in an unconscious condition, bleeding freely, and with his nose mashed almost flat. He was taken to the office of Drs. Kenney & Dudley, where he was revived and his wounds dressed. As far as we have been able to learn he had been hit with brass knucks.

Singleton had disposed of his tobacco crop and had a roll of money on his person. He entered the saloon of Woods Brothers accompanied by Tom Baker, a negro, who it is said, formerly acted as porter on a Louisville and Nashville train. The two took a drink, Singleton displaying a considerable sum of money when paying for the drinks.

Leaving the saloon both men went out Eighth street where a few moments later Singleton was found as above described, but without his money. Singleton is a married man and has two children. The police are searching for Baker.

Worth the Money.

Rural mails cost the United States the immense sum of \$120,000 a day, or \$36,000,000 a year, but this vast outlay of money has done wonders for 20,000,000 Americans who live in the country. Since the establishment of rural mails suicide and insanity among farmers' wives have decreased, farm values have increased from 25 to 45 per cent, the crop yields have been generally improved and enlarged, employment has been given to 41,000 rural mail carriers, and thrift has been stimulated and artistic surroundings encouraged.

To Kill White Top.

Sulphate of iron will be tried extensively next year by the Central Kentucky farmers to exterminate white top, says the Lexington Herald. A test given to this chemical compound, which is cheap and effective, has been reported upon favorably by the Kentucky Experiment Station and the spraying carts which are used to saturate the objectionable weed will probably be conspicuous in many a field. H. Garman, of the Experiment Station, will give all the information desired as to what iron sulphate will do. He conducted the test on the college farm last year.

Want New Insurance Laws.

Insurance Commissioner Charles W. Bell is being kept busy listening to those who want the insurance laws of the State revised at the coming session of the General Assembly. The Louisville Board of Underwriters has considered several measures which it believes will be of benefit to the policyholders of the State, and some of them, of course, of benefit to the insurance companies.

The resident agent law which is in effect in so many states will probably be one that he will approve. This act provides that no company shall write insurance in Kentucky who has not a resident agent in the State. The Louisville Board of Underwriters has found particular reason to complain of this in the habit of insurance agents of New Albany and Jeffersonville, who cross the river, write insurance in Louisville, escape the payment and underbid the Louisville agents for the business.

An anti-rebate law is certain to have the endorsement of the Insurance Commissioner, and is strongly recommended by the Board of Underwriters. There has been much complaint of this practice in Kentucky recently, and Insurance Commissioner Bell is having some quiet investigations made of the matter.

The Underwriters are anxious to repeal the present policy law, but it is anticipated that they will have a hard time in getting by with it. This law compels an insurance company to pay the full face value of a policy on a house, if the house is completely destroyed, no matter whether the company ascertains whether the house is worth that much money or not. It compels the companies to be more careful in the selection of their agents, who write the risks.

Farm Improvement.

The Courier-Journal in commenting on the Bourbon County Farm Improvement Society says:

"A great deal could be accomplished in this way by organization and it is to be hoped the Bourbon County farmers will be so successful in arousing a spirit of enterprise that it will spread to other sections of the State. A good many farms are sorely neglected, to the detriment of the farm and to the cost of the owner, although he probably does not realize it. Farmers might very profitably put in some of their spare time in improving the appearance of their fences and buildings. There are some land owners who take a justifiable pride in their property and look closely after its condition, but a majority of them do not."

"A well kept farm is attractive and money and time judiciously spent in beautification work wonders. Nor does it require a great deal of time or a large amount of money to keep a farm in good order, provided attention is given at the right season. A run down farm is an eye sore and reflects much labor to be brought back to a status where it will be pleasing and attractive to the passing beholder. If it is not allowed to deteriorate in the first place the task of keeping it in order is greatly simplified."

It is not to be expected that a farm may be transformed into a bed of roses or a bower of beauty, or that it may be made as delightful to the eye as a well kept city lawn but a little timely attention of details may add remarkably to its general attractiveness."

The Goebel Monument.

Judge McQuown, chairman of the Goebel Monument Committee of the Goebel Monument Commission, has selected Miss Lillian Goebel to unveil the statue of Governor Goebel, February 3. Miss Goebel is a niece to the former Governor.

Judge McQuown also selected Senator McCreary and former Governor Beckham to deliver the speeches at the unveiling. The Goebel monument has been erected with money contributed by thousands of persons in the form of 25 and 50 cent pieces, and is to be unveiled in the Frankfort cemetery on the tenth anniversary of the death of the ex-Governor.

Church Experiment.

The First Presbyterian church at Winchester has tried an experiment which has been successful thus far. Instead of the night services an afternoon service is held at 4:30 o'clock. The night service used to bring together about fifty persons, who looked lonesome in a large auditorium. The afternoon service on last Sunday was largely attended, the church being almost filled, although the weather was very cold. Many persons from other congregations attended and some of the Presbyterians who had not been to the night service for years were present. The afternoon service seems to have been successful and will be continued all winter.

Woman's Home Companion for January.

We find attractive special features in this number. A double page of pictures shows some of the most famous work of modern Europe masters; there is also a large full page painting by Mary Solgbee Ker of "Young 1910" waiting on the threshold of the New Year. Seven photographs of that most popular actress, Ethel Barrymore, pictures her quick rise from amateur to leading lady; and the music, "Gavotte-Madrigal," is by Frances Thome.

Octave Thanet tells the story of two lonely women in "In Place of Their Own," and Myra Kelly surpasses her own standard of gentle humor in "The Spirit of Cecilia Anne." Anne Warner's "Susan Clegg's Courtship" is but one of the series she is writing for the Woman's Home Companion, and "Room Number Three at Three Forks Tavern," the great detective story by Anna Katherine Green, is continued in this number.

The articles are the kind that are talked over for weeks. "Fifteen Years With My Wife" is a leaf out of a life experience; and "Shall We Stay in the Ministry?" and "The Music Student Abroad" are earnest and truthful articles.

A really delightful innovation is the page of New Years Cards. In fact, the whole magazine begins the New Year in a manner calculated to more than satisfy its readers.

The regular departments are replete with suggestions, help, and the best of obtainable ideas on the subject of fashion, housekeeping, the children, the home, sewing and reading.

"Little Nemo" at Lexington.

When the production of "Little Nemo," Klaw & Erlanger's massive musical comedy, comes to the Lexington Opera House, January 6, 7 and 8 with one matinee, it will be one of the biggest productions that has ever been seen in this section of the country. It requires a special train of seventeen cars to transport the organization on its road tour and but a few of the largest cities will be visited.

The company numbers over 150 and it requires a working staff of 75 skilled mechanics to handle the intricate scenes and wonderful spectacular features. "Little Nemo" will please all those who are fond of spectacular in stage entertainments. It will be some thing different from the traditional bit of production.

Klaw & Erlanger, it is said, never sent out a second company, their contention being that the cities visited by their organizations on tour should be treated with the same consideration that is shown the public of New York.

The book of "Little Nemo," which is by Harry B. Smith, is based on the cartoon of Winsor McCay. The music is by the great American composers, Victor Herbert, and the score contains many musical gems. The principal comedy roles are in the hands of Joseph Cawthorn, Harry Kelly, Harry Blaney and Master Gabriel.

A Unique Gift.

John Bryan, the eccentric and wealthy novelist, poet, musician and farmer, living near Yellow Springs, Ohio, has offered to give Antioch College students an opportunity to raise potatoes to help the expense of the college. Mr. Bryan proposes to give the college the use of 100 acres of land which, he says, the students can plant in potatoes that will average 200 bushels per acre, thus making 20,000 bushels of the crop. Mr. Bryan states that the potatoes can then be sold in the early market for \$1 per bushel, and the college thus secure \$20,000. The generous donor states that his plan would be to have their girls learn to cut the 1,500 bushels of seed potatoes ready for planting and then the boys could do the work. The proposition is now being considered.

Hard Times.

Bewails his dreary fate;
There's nothing in his stomach
And nothing on his plate.

STOCK, CROP AND FARM NOTES.

—The twelve principal crops of the United States alone show a value of over \$5,000,000,000 at last reports.

—A New York woman has a hen that has laid 130 eggs in 60 days, "says an exchange. That hen doesn't lay—she lies."

—At Frankfort one crop of Burley, belonging to A. L. Ture, of Franklin county, sold for an average of twenty eight cents per pound, the record price or the year.

—Goat milk is much richer than the finest Jersey cow milk, and on account of the healthfulness of the animal and its practical immunity from tuberculosis, which affects cows, there is a large demand for the milk, and at present it commands a price of \$1 per gallon in the cities.

—The final report of W. E. Wyman, assistant State veterinarian, on sheep inspection, says that he and his assistants had visited 355 farms and inspected 29,350 sheep, that the work was finished until shearing and lambing time, when the same ground should be covered again in conjunction with a Federal veterinarian.

High Price for Mules.

A. Warfield, a stockman of Macon, Ga., bought mules at Elizabethtown Tuesday. The editors were wined and paid perhaps in the State of Kentucky. He bought fourteen head from Claud Pemberton at \$205 per head, a span from R. B. Park at \$550 and a span from B. F. Craddock at \$800. The latter span has taken the premium at a fair throughout Kentucky, Illinois and Tennessee.

Editors at Lexington.

The Kentucky Press Association met in midwinter session at Lexington Tuesday. The editors were wined and dined in old fashioned Blue Grass style. President J. K. Patterson, of the Kentucky University, delivered the address of welcome, and Judge James H. Mulligan acted as toastmaster at Tuesday night's banquet. C. L. Adler interested the editors in some facts concerning the fight against tuberculosis in Kentucky.

Remedies are Needed

Were we perfect, which we are not, medicines would
not often be needed. But since our systems have be-
come weakened, impaired and broken down through
indiscretions which have gone on from the early ages,
through countless generations, remedies are needed to
aid Nature in correcting our inherited and otherwise
acquired weaknesses. To reach the seat of stomach
weakness and consequent digestive troubles, there is
nothing so good as Dr. Pierce's Golden Medical Discov-
ery, a glyceric compound, extracted from native medi-
cinal roots—sold for over forty years with great satisfaction to all users. For
Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating,
Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal
Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its
outside wrapper the
Signature

Dr. Pierce's

You can't afford to accept a secret nostrum as a substitute for this non-alco-
holic, medicine of known composition, not even though the urgent dealer may
thereby make a little bigger profit.
Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and
bowels. Sugar-coated, tiny granules, easy to take as candy.

THEATRICAL.

"THE BLUE MOUSE."

In Germany, Clyde Fitch discovered the foundation of what is said to be the funniest farce ever presented on the American stage. The piece is "The Blue Mouse," which comes to the Paris Grand next Friday, January 7, with a cast which includes Millicent Evans, Samuel Edwards, Guy D'Enery, Earle Mitchell, Marie Gerard and twenty others.

The scenes of the play are laid in New York. Augustus Rollett, who loves his wife, wants to be promoted from the position of secretary to the president of the Inter-State Railroad to a division superintendency. Now his superior, Lewellyn, has a human

falling for pretty faces. Rollett seizes upon this weakness, engages Paulette Divine, a vaudeville Salome dancer, who is known as "The Blue Mouse," to impersonate his real wife and flirt with the president of the road. The first scene shows two offices of the railroad.

No time is lost in starting the fun. The dancer begins her clever onslaught, which gives Mrs. Lewellyn, a termagant, a "scent." Also the real Mrs. Rollett is taken for "The Blue Mouse" and Lewellyn flirts with her, much to her disgust. Then Rollett's father-in-law, an odd character from Cohoes, drops in unexpectedly and meets Paulette, who is posing as his daughter. In the second act, which shows the "Inner-Apartment" of "The Blue Mouse," complications come so

quickly as to simply convulse the audience.

It requires three acts in all to straighten matters. Paulette Divine, a new character to the stage, is not wholly bad and before the play is ended she has won the sympathy of the audience. Miss Evans is said to give to the part a gracious candor and innocence which robs what otherwise would be a sickening spectacle of a conscienceless woman. The author, who staged and produced the farce, has likewise carefully eliminated all features which often characterize French and German farces as naughty.

"MA'S NEW HUSBAND."

Dorothy, the maid of all work in "Ma's New Husband" is heralded as being about the cutest bit of femininity seen on the stage for many a day. Her make-up is as droll as her character, and the ease with which she falls in love with every man she meets makes her one of the star laugh makers of the performance. Her attempts to capture a boy who turns out to be a full grown man and who trifles with her to the top of his bent, furnish lessons in light comedy that will be remembered long for their delicious fun. The comic song, "Jokes," sung by her, and the comedy duet, "A Kiss," by the "boy" and herself never fail to bring encores of the most enthusiastic character.

"Ma's New Husband" is a musical farce in three acts that is said to force laughter from the most confirmed cynics and smiles from victims of the most acute melancholia. A rare musical and laughing treat is promised, and the Harry Scott Company, guarantee a capable company and a delightful performance. "Ma's New Husband" will be at the Paris Grand next Thursday evening for one night only. Seats now on sale.

New Trial Denied.

Judge Hough, of the United States Circuit Court in New York, denied the motion for a new trial for Charles W. Morse, who is now in the toms under sentence for having violated the national banking law. Motion for a new trial was made on the ground that some of the jurors were not fit to pass upon questions presented.

Queen Quality
Announcement

WE have pleasure in announcing that we have secured the exclusive agency for the famous "Queen Quality" Shoes for women. You are invited to see the new styles we have just received. Here are some impressive facts that tell their own story.

"Queen Quality" Shoes are worn by more women than any others in all the world.

For a decade the sales of "Queen Quality" Shoes have far exceeded those of all other women's shoes.

Ten thousand pairs are made each day in the great "Queen Quality" Factory, yet this output does not keep pace with the demand.

No need to tell you there must be good reasons for this. This leadership cannot be a matter of chance. We might give you a dozen reasons why you should wear "Queen Quality" Shoes, yet one pair on your feet can tell you better. Will you let it?
